

# Inter-Harz GmbH

Your partner for raw materials.

13. January 2020

## To whom it may concern

The **Federal Aviation Office of Germany** (Authority for Airtransport) has granted to Inter-Harz GmbH the status as

### **known consignor**

**Registration No.: DE/KC/02106-01**

In order to provide our customers a **fast service via airfreight**, this registration was a necessary step, as the security regulations for airfreight have changed in July 2019 in Germany, which caused to longer lead time before the air transport, especially for chemicals.

With the new status as known consignor we can offer an immediate delivery **without** long-lasting security checks.

This means a substantial advantage for our customers abroad in order to **reduce the lead time** before air-transport - resulting in **faster availability** at the point of destination.

We have centralised our activity in this field in our longterm rented warehouses, which are close to the German main airports.

In order to provide excellent service to our customers we regularly store approx. **300-400 different RAW MATERIALS and/or INGREDIENTS** for the Cosmetic Industry, standard qualities and also special ones on forecast or contract basis.
